

## J-FAT connector

3.5mm pitch

[Type]

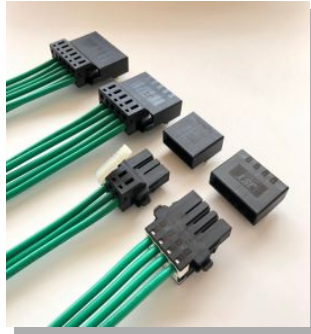

Spring type

[Current rating]

43A (when applied AWG #8 with J-FAT-S-P)

[Voltage rating]

250 / 300 / 600V

Spring type connection structure makes a wire connection operation easy by using the open tool.

## VH connector (Quick-connect type)

3.96mm pitch

[Type]

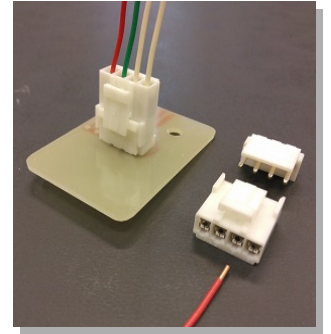

Disconnectable type  
Spring type

[Current rating]

7 A (Based on  $\phi$ 1.0 mm size solid wire)

[Voltage rating]

250 V

Quick-connect type for use with solid wire can be successfully utilized in a wide range of applications. Wire harness assembly can be conveniently performed on-site by simply inserting stripped solid wire into the connector housing. This operation is ideal for making on-the-spot electrical connections at the worksite.
